## Onsite Wastewater Treatment Systems for Realtors Seminar

Realtors? Ever get asked questions about septic systems you can't answer? The Missouri Smallflows Organization (MSO) is hosting a 3-hour class to discuss the types of residential onsite wastewater treatment methods that are used in Missouri. In addition, you'll learn about what Onsite Treatment System Inspectors do to inspect these systems.

Attend this class and learn about how wastewater treatment works on individual homes. Grow your skills to better serve your clients!

Professionals in the onsite wastewater industry will be giving the class so you can ask questions!

Class will be 3 Hours and self-submit forms for CECs will be available upon completion with certificate and agenda.
